

*Our goal is to preserve and perform great music while educating audiences on the richness of Latin Jazz.*

A harmonic blend of jazz and Afro-Caribbean rhythms.

**St. Lucie Tropical Jazz** is an exciting Latin Jazz Big Band from St. Lucie County, Florida. Their focus is to blend the joyful, grooving Latin styles and musical traditions with the richness of jazz harmonies, to forge a vibrant sound that just sizzles. This pool of impressive and talented musicians always thrill audiences with their infectious polyrhythmic grooves, harmonic colorings, and improvisational flights. The voracious drive of the band fuels the thrilling, surprising arrangements by mixing modern and traditional grooves with fluid ease.

The band's influences come from the musical styles of the many different cultures which come together under the umbrella of Afro-Caribbean music. *Tropical Jazz* is the only band in Saint Lucie who has incorporated a Bebop foundation into their playing and expounded on the Latin jazz vocabulary with modern sensibility and style. The group is led by Grammy Award winner, band leader and pianist Robert Navarro.
